1. Introduction

The implementation of projects in the framework of ENI CBC requires the procurement of works, supplies and/or services by the beneficiaries in nearly all of them.

During the programming period 2007-2013 ENPI CBC projects were obliged to use the procedures of the Practical Guide to Contract procedures for EC external actions (PRAG). This obligation has not been included in the ENI CBC Implementing Rules (EC Regulation 897/2014), hereinafter ENI CBC IR.

The new regulatory framework allows therefore for the use of national legislation and procedures in CBC Partner Countries. However, national rules will be applied (1) under certain conditions and (2) only for certain types of beneficiaries. The present factsheet aims to describe the applicable rules of awarding contracts related to works, supplies and services for public the Armenian beneficiaries¹, deriving from the applicable legislation, but also from the programmes' specific rules and the Financing Agreement.

¹ For the purpose of this note, the notion of "non-public", that is, "private beneficiary" should be understood as private non-profit organization, as none of the programmes in which Armenia is involved allows for the participation of profit-making bodies (e.g., businesses). A separate guide on procurement is available for them.

2. Applicable legal provisions

2.1. Provisions in the ENI CBC Implementing Rules

Section 1 of the chapter 4 of the ENI CBC IR regulates procurement. The articles relevant to Armenian beneficiaries are as follows:

Article	Content
52.2	General principles
52.3	Rules of nationality and origin
53	Procedures and thresholds for service contracts
54	Procedures and thresholds for supply contracts
55	Procedures and thresholds for work contracts
56	Use of negotiated procedure

General principles

Article 52.2 stipulates that:

- a) *The contract is awarded to the tender offering the best value for money, or as appropriate, to the tender offering the lowest price, while avoiding any conflict of interest;*
- b) *For contract with a value of more than 60.000€, the following rules shall apply:*
 - i. *An evaluation committee shall be set up to evaluate applications and/or tenders on the basis of the exclusion, selection and award criteria published by the beneficiary in advance in the tender documents. The committee must have an odd number of members with all the technical and administrative capacities necessary to give an informed opinion on the tenders/applications;*
 - ii. *Sufficient transparency, fair competition and adequate ex-ante publicity must be ensured;*
 - iii. *Equal treatment, proportionality and non-discrimination shall be ensured;*
 - iv. *Tender documents must be drafted according to the best international practice;*
 - v. *Deadlines for submitting applications or tenders must be long enough to give interested parties a reasonable period to prepare their tenders;*
 - vi. *Candidates or tenderers shall be excluded if they fall within one of the situations described in article 106(1) of Regulation 966/2012 [...] (bankruptcy, etc.).*

In December 2016, the Republic of Armenia approved a new law on procurement, which harmonized the applicable rules with WTO standards.

In any case, the Armenian beneficiaries, in accordance with the provisions of the Financing Agreement, also need to comply with the rules stipulated in the ENI CBC IR. A specific check-list for the verification of the compliance has been prepared. The identified potential incompliances are indicated in this guide.

Rules of nationality and origin

Article 52.3 stipulates that *"In all cases, the rules of nationality and origin set forth in articles 8 and 9 of Regulation 236/2014 shall apply."* This rule is also included in article 5 of the General Conditions of the Financing Agreement signed between the European Union and Armenia for the ENI CBC programmes.

What does it mean in practice?

The **rule of nationality**, that is, the eligibility conditions for the participation of tenderers in procurement procedures, is the same as the one applied in the Member States. Therefore, there is **no restriction on nationality of tenderers**.

The Common Implementing Rules (EC Regulation 236/2014) make reference to the threshold of the competitive negotiated procedure, which corresponds to EUR 100 000. This indeed means that when the value of the supplies to be purchased is below EUR 100 000 per purchase, the supplies do not have to originate from an eligible country (full untying). It shall also be mentioned that this Regulation provides that in the case of actions implemented under shared management with a Member State, as it is the case in the ENI CBC Programmes, **countries that are eligible under the rules of that Member State are also eligible**. According to the Romanian legislation, no restrictions regarding origin are foreseen, so there is **no restriction on the origin of supplies**. As an exception, the sanctions currently imposed by the EU on Russia (and vice versa) may lead to restrictions in the acquisition of goods and services from this country.

Procurement procedures and thresholds

Articles 53 to 55 of the ENI CBC IR define the type of procedure and thresholds for services, supplies and works, as follows:

Article 53	Service contracts
> 60.000€ < 300.000€	Competitive negotiated procedure without publication
≥ 300.000€	International restricted tender

Article 54	Supply contracts
> 60.000€ < 100.000€	Competitive negotiated procedure without publication
≥ 100.000€ < 300.000€	Open tender procedure published in the programme area
≥ 300.000€	International open tender

Article 55	Work contracts
≥ 60.000€ < 300.000€	Competitive negotiated procedure without publication
≥ 300.000€ < 5.000.000€	Open tender procedure published in the programme area
≥ 5.000.000€	International open tender

In the cases where the tender needs to be published in the programme area, the beneficiary might need to go beyond the obligations of the national legislation, that is, whatever the threshold stipulated at national level, the publication should be in English. Moreover, it should be published in Internet, so that the potential suppliers from the other participating countries of the programme area are informed (e.g. web-site of the project or of the programme).

Nevertheless, the thresholds in the ENI CBC IR are not directly applicable to Armenian public beneficiaries if national legislation is applied. Moreover, there is no specific reference in the ENI CBC IR on the procedures with a value **below 60.000€**. Also in these cases, beneficiaries need to refer to the **national legislation and, where allowed, to the internal rules of the organisation**.

Note that contracts must not be split artificially to circumvent the procurement thresholds.

Irrespective the amounts concerned, all procurements must respect the **general principles** of avoidance of conflict of interest, transparency, fair

competition, equal treatment, proportionality and non-discrimination (unless regulated otherwise in the Guidelines for applicants or in the grant contract).

Conversion of thresholds from Euro to Armenian Dram (AMD)

The amounts indicated in the ENI CBC IR and in the programme rules are all in EUR, while in the actual procurement procedures AMD will be used. **Which exchange rate should be used to verify if the procedure is above or below the threshold?**

Article 8 of the General Conditions of the Financing Agreements stipulates that “[...] in case of procedures in currencies other than Euro, the amount shall be converted to Euro using the exchange rate method mentioned in the Programme (Annex II).”

The exchange rate may be “monthly accounting rate of the Commission”, which can be found in the **Inforeuro website** at the following URL address: http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/index_en.cfm

Use of negotiated procedure

Article 56 of the ENI CBC IR stipulate that “*The beneficiary may decide to use negotiated procedure on the basis of a single tender in the cases referred to in Article 266 of Delegated Regulation (EU) No 1268/2012.*” This article provides a list of reasons for justified use of the negotiated procedure and need to be complemented with the instructions and thresholds stipulated in articles 265, 267 and 269 of the above-mentioned Regulation.

“*Negotiated procedures*” **should not be confused** with the “*Competitive negotiated procedure*” mentioned in article 53 to 55.

A non-exhaustive list of the cases referred in Article 56 of ENI CBC IR is:

- Extreme urgency,
- Extension of contracts already started (with respect of certain conditions),
- Additional delivery of original supplies as replacement of normal supplies,
- Contract following a contest,

- The tender procedure has been unsuccessful,
- Where for technical reasons, or for reasons connected with the protection of exclusive rights, the contract can be awarded only to a particular provider,
- Where a new contract has to be concluded after early termination of an existing contract.

The use of negotiated procedure is **exceptional** and there are specific provisions in national legislation for single source procurement. Please **check very carefully** Law and Governmental Decision no. 526 to assess the convenience of using this procedure.

The practical implications of this legislation are explained in the next chapter.

3. Requirements on procurement for Armenian public bodies

3.1. General principles

The “**Law no. HO-21-N of 16.12.2016 on Procurement of the Republic of Armenia**” shall apply to the beneficiaries considered as public bodies in the understanding of the law².

The general procurement principles, as stated in article 6 of the law, are in line with the ENI CBC IR: fair competition, economy and efficiency, transparency, non-discrimination, objectivity and fight against corruption and fraud.

3.2. Definition of public bodies

Article 2.1 (1) & (2) of the Law of Armenia on procurement includes the following definition of “**contracting authorities**”:

(1) *contracting authority means:*

- a. *public administration and local self-government bodies, state or community institutions provided for by the Constitution of the Republic of Armenia and laws of the Republic of Armenia;*
- b. *Central Bank of the Republic of Armenia;*
- c. *state or community non-commercial organisations;*
- d. *organisations with more than 50% of state or community shares;*
- e. *foundations established or associations (unions) formed by the state or community, or state or community non-commercial organisation, or organisations with more than 50% of state or community shares;*
- f. *legal persons having received means in the form of donation or grant from the state or community, or from the Central Bank of the Republic of Armenia, or from state or community non-commercial organisations, or organisations with more than 50% of state or community shares as regards procurement carried out at the expense of means received in the form of donation or grant;*
- g. *foundations restructured through reorganisation of state or community non-commercial organisations or organisations with more than 50% of state or community shares;*
- h. *public organisations;*

² This is without prejudice to the application of a different notion of “public body” for the purposes of determining the financial liability of Republic of Armenia in accordance with Article 74.5 of the ENI CBC IR and the Financing Agreement.

(2) *public organisation means:*

- a. *persons included in the list approved by the Public Services Regulatory Commission of the Republic of Armenia, who carry out activities in the regulated field of public services, with the exception of persons who have been included in the list referred to in this paragraph due to holding a dominant position in respect of services provided within the framework of operation of the public network in the electronic communication sector;*
- b. *other organisations operating in the field of public services which, based on a special or exclusive right, implement one or more types of relevant activities defined by this Article, where procurement is carried out for the purpose of implementing the given type of relevant activity;*

3.3. Language requirements

The procurement announcements have to be published in Armenian, even though other languages may be used under the circumstances stipulated in article 14 of the law.

3.4. Type of procurement procedures

Article 18 of the Law stipulates the following procurement procedures

1. The procurement procedures shall be:

- (1) electronic auction;
- (2) tender;
- (3) price quotation;
- (4) single source procurement.

3.5. Applicable thresholds

The “**Law of the Republic of Armenia on procurement**” stipulates some thresholds for public bodies.

The thresholds in the Law are expressed in AMD. **This guide uses the accounting rate of the Commission of the month of September 2018**, that is 560,88 AMD/EUR. The updated accounting rate may be found in:

(http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/index_en.cfm).

The Law fixes the following thresholds, together with specific additional conditions:

Type of contracts	Amount in AMD	Estimated amount in EUR (September 2018)
Price quotation	70.000.000 AMD	124.803,88€
Single Source Procurement	Up to 1.000.000 AMD	1.782,91€

The procurement may be carried out through **price quotation**, where the procurement price does not exceed seventy-fold of the procurement base unit, and where the subject of procurement is not included in the list provided for by point 14 of part 1 of Article 5 of this Law, and in case of procurement containing state secret — in the list provided for by point 15 of part 1 of Article 5 of this Law.

Procurement may be carried out from single source, where the procurement price does not exceed the procurement base unit or it is carried out outside the territory of the Republic of Armenia.

4. Compliance with ENI CBC Implementing Rules

4.1. Partially compliant provisions

Even though the Law of Republic of Armenia on procurement, together with the orders of the Ministry of Finance, is compliant with the requirements of articles 52.2 to 56 of the ENI CBC IR, there are two points of attention, which might imply ineligibility of expenditure if not taken into account:

- Exclusion criteria for tenderers and declaration on honour;
- Number of members of the evaluation committee.

4.1.1. Exclusion criteria

Article 28 of the Law stipulates the need for the bidder to supply a statement certified thereby with the bid justifying the eligibility thereof to participate in the procurement. However, the eligibility criteria defined in articles 6 and 34 of the Law are not fully compliant with the requirements of the ENI CBC IR.

Not including specific provisions in the tenders, which fully comply with the eligibility criteria, may lead to the full or partial ineligibility of expenditure. Therefore, it is necessary to add **a declaration on honour** fully compliant with the ENI CBC IR. A template for such declaration is included as **annex A** of this document

4.1.2. Composition of the evaluation committee

The Decree of the Government of the Republic of Armenia No. 526-N, dated 04 May 2017, Annex No. 1 "Procedure for Organisation of the Procurement Process" stipulates:

26. [...] *The evaluation commission:*
(1) *Shall be composed of at least three members and have a chairperson and a secretary which shall be prescribed by the act on formation of the commission. [...]*

The beneficiaries must consider the requirement of the ENI CBC IR of an **odd number of members**, which is compatible with the provision in the Law of Armenia.

4.2. Tender documents in accordance with best international practices

Even though the standard tender documents are compliant with the criterion of “best international practices”, some minor elements should be improved to be fully in line with the usual EU practices.

In particular, three evaluation documents are missing in the standard templates:

- Administrative grid;
- Evaluators grid;
- Tender opening check-list

We recommend to use the following PRAG templates for these missing documents:

Name of document	PRAG reference
Forms for the evaluation process	
Administrative Compliance Grid	b8o1_admingrid_simp_en.doc (services); c4j_admingrid_en.doc (supplies); d4l_admingrid_en.doc (works)
Evaluation grid	B8m1_evalgrid_fees_en.doc (services fee-based); B8m2_evalgrid_global_en.doc (services global price); c4k_evalgrid_en.doc (supplies); d4m_evalgrid_en.doc (works)
Tender opening check-list	b9_openchecklist_en.doc (services) c5_openchecklist_en.doc (supplies) d5_openchecklist_en.doc (works)

We strongly recommend:

- to adapt (and translate) PRAG templates or

- to ensure that its content is included in your usual templates. In particular, the following information is not usually included in Armenian templates:
 - Name of the programme (Black Sea Basin ENI CBC 2014-2020)
 - Legal basis (at least add ENI CBC Implementing Rules, the Joint Operational Programme, the Financing Agreement and the Grant contract provisions)
 - In the instructions for tenderers: content of the tender and ethic clause (see examples in b8o5_itt_simp_en.doc)

In case of **procurement documents NOT compliant** with EU's practices. The non-inclusion of this templates may result in the ineligibility of the expenditure.

You may find the templates in the annexes for services, supplies and works in the following URL: <https://goo.gl/Ungxi6>³

The screenshot shows the PRAG eContent website interface. The main header includes the European Commission logo and the text 'INTERNATIONAL COOPERATION AND DEVELOPMENT eContent'. Below this, a navigation breadcrumb reads 'European Commission > International Cooperation and Development > Funding > Online Services > Prag > PRAG'. A menu bar contains 'Version 2016.0', 'Document', 'Annexes', 'Download available languages', 'Previous versions', 'Keywords', 'External links', and 'Search'. A dropdown menu for 'Annexes' is open, listing: 'Annexes Z (Ch. 1): Introduction', 'Annexes A (Ch. 2): General', 'Annexes B (Ch. 3): Services', 'Annexes C (Ch. 4): Supplies', 'Annexes D (Ch. 5): Works', 'Annexes E (Ch. 6): Grants', 'Annexes F (Ch. 7): Legal texts', and 'All annexes'. On the left, a sidebar menu lists: '1. Introduction', '2. Basic rules', '3. Service contracts', '4. Supply contracts', '5. Works contracts', '6. Grants', '7. Legal Texts', and '8. List of Annexes'. A 'PRAG Practical Guide' graphic is visible on the right, and the date '15 January 2016' is at the bottom right.

4.3. Additional templates and information to the usual ones

As indicated in the section above, some of the documents stipulated in PRAG are not usual in the Armenian procedure, there is no specific template or there is some missing information.

³ This is a shortened URL address

“Tender documents must be drafted according to best international practice” This is an essential requirement for the eligibility of expenditure.

Despite the alignment of Armenian legislation with WTO standards, we recommend to carry out a thorough verification of the compliance of its usual templates with the indications of this guide.
