

COOPERATION ACROSS BORDERS

Common challenges, joint opportunities

Moldova

Interreg

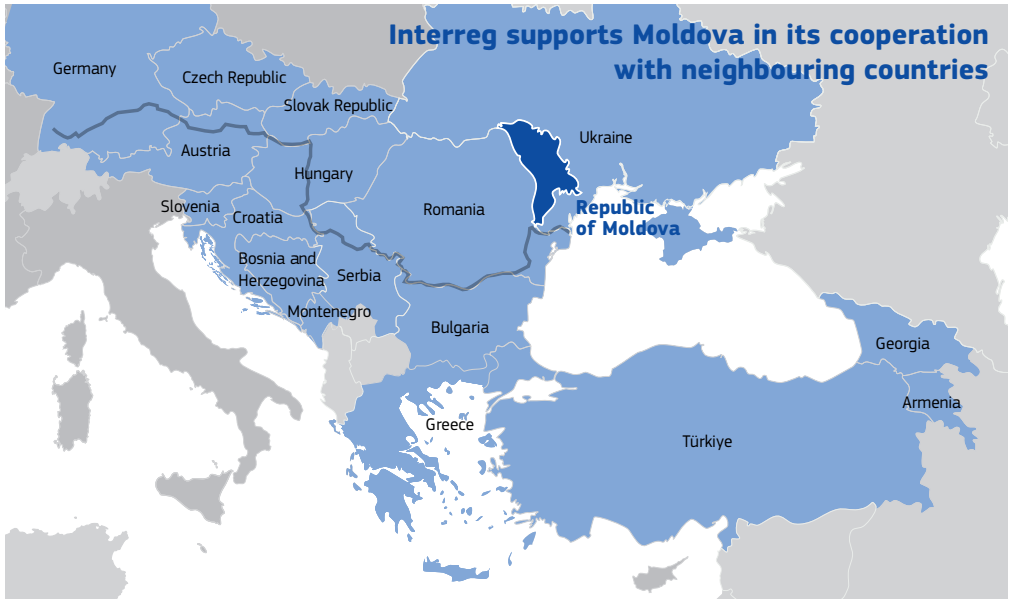

Co-funded by
the European Union

A strong and lasting partnership

Interreg is a European Union initiative designed to promote regional cooperation and development across borders. By involving the Republic of Moldova (hereinafter Moldova), Interreg aims to create a strong and lasting partnership between Moldova and EU Member States, and to foster **mutual regional development**, for the benefit of all citizens and regions involved.

The cross-border cooperation mechanism ensures that all participating regions can share the benefits of their efforts: through Interreg, border areas have become **greener**, more **prosperous**, more **connected**, and more **inclusive**. In the future, the initiative will continue to bring benefits to all the people and territories involved, through the implementation of hundreds of projects.
