

# TESIM

Technical support to the implementation  
and management of ENI CBC programmes

## Taking stock of ENI CBC and looking ahead to Interreg NEXT:

- *Webinar on “More social Europe and its  
neighbourhood” for post-2020*

1 April 2020

## Introduction

The implementation of ENI CBC projects is now in full swing and, at the same time, the preparatory work for post-2020 programmes has also been launched. Already since 2019 the European Union has been debating its future approach to the neighbourhood policy. Even if the debate is far from being concluded, there are already some relevant inputs, such as the joint paper on Interreg NEXT strategic programming and its annexes shared during the recent “What's NEXT?” conference in Brussels. In order to start the discussion, TESIM has made an analysis of the ENI CBC projects in the area of people-to-people cooperation. Putting them in the future perspective, this area could find a further development under the policy objective 4 “A more social Europe and its neighbourhood”.

The webinar will be devoted to a reflexion and discussion on how the (expected) results of the current projects can be used for building strategies of the future programmes, in particular:

- How is people-to-people cooperation embedded in the programme and project strategies?
- How are these projects paving the way for a more social Europe and its neighbourhood in the next programming period?

The main target audience for both events are the project and programme managers.

## Agenda

9:00 - 9:15	<b>Introduction of the agenda (ice-breaking exercise)</b>
9:15 - 9:30	<b>Introduction to TESIM's clustering approach:</b> Why four thematic clusters? What kind of data and outputs gathered? What level of analysis? Possible users and scenarios of such products for further analysis.
9:30 - 10:00	<b>Focus on the challenges addressed by ENI CBC programmes in the thematic area of people-to people cooperation – Presentation by TESIM:</b> subtopics, main types of projects, expected outputs and results in accordance with the adopted JOPs.  <b>(Brainstorming:</b> Based upon the experience of funded projects, what are in your opinion the main strengths and weaknesses of the funded initiatives?)
10:00 - 10:30	<b>Experiences from the ground:</b> two ENI CBC projects representatives will share their main challenges, outputs and expected results <ul style="list-style-type: none"> <li>- <b>Karelia project: Culture open</b></li> <li>- <b>Mediterranean Sea Basin: MedTown</b></li> </ul>
10:30 – 10:45	<b>Break</b>
10:45 – 11:30	<b>From ENI CBC to Interreg NEXT:</b> Review of answers provided to the survey received before the event and common exchange.  <b>(Questions and answers:</b> possible matching with the draft indicators for Policy Objective 4 "A more social Europe and its neighbourhood". Questions can be put forward by the participants in the forum chat during the entire presentation. TESIM will screen and select those which can be given an immediate answer)
11:30 - 11:45	<b>Wrap up and next steps</b>  <i>(We suggest that right after the webinar you plan some time for your individual reflections and sending in questions which will be later on answered in a consolidated Q&amp;A paper. The means and timeline of the exercise will be explained by TESIM)</i>
