

Technical support to the implementation
and management of ENI CBC programmes

Let's cluster with our neighbours

Thematic clustering approach for ENI CBC programmes

TESIM Thematic webinar

8 April 2020

A project funded by the European Union

Implemented by a consortium led by

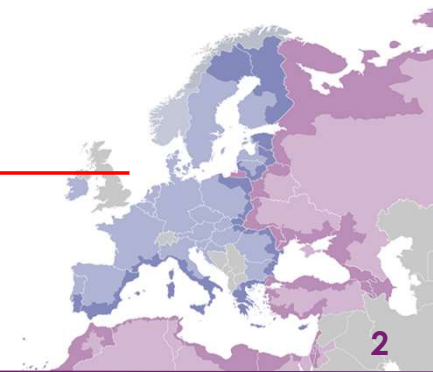

Technical information

The screenshot displays a video conference interface with several key components and annotations:

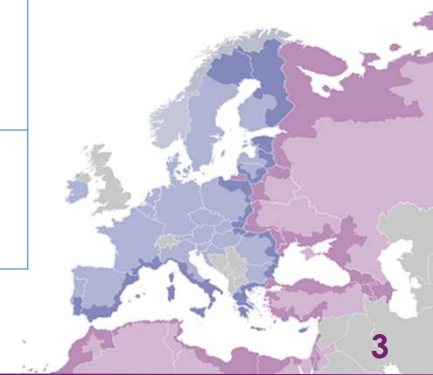

- Top Toolbar:** Contains icons for Mute, Stop Video, Invite, Manage Participants (circled in red), Share, Chat, and Record.
- Participants List:** Shows two participants: Iveta Puzo (Host, me) and human. To the right of the list, a blue arrow points to a red circle containing microphone and video camera icons, with the text "To mute audio and stop video".
- Bottom Left Controls:** Includes buttons for "yes" (green checkmark, circled in red), "no" (red X, circled in red), "go slower", "go faster", "more", and "clear all". A red arrow points from the "yes" button to the "yes" button in the bottom right control bar.
- Bottom Right Control Bar:** Features a "Raise Hand" button (blue hand icon, circled in red), a "yes" button (green checkmark, circled in red), a "no" button (red X), "go slower", "go faster", and "more" buttons. A red arrow points from the "yes" button to the "yes" button in the bottom left control bar. Below these buttons is a "Mute Me" button.
- Participant List:** On the right, it lists "Federico (Me)" and "ANNA DORANGRICCHIA (Host)".

Agenda for today

9:00 - 9:15	Introduction, technicalities, scope of the event
9:15 - 9:30	Introduction to TESIM's clustering approach
9:30 - 10:00	Focus on the challenges addressed by ENI CBC programmes in the thematic area of people-to people cooperation (TESIM presentation)
10:00 - 10:40	Experiences from the ground
10:45 - 11:30	From ENI CBC to Interreg NEXT: Review of answers provided to the survey received before the event and common exchange.
11:30 - 11:45	Wrap up and next steps

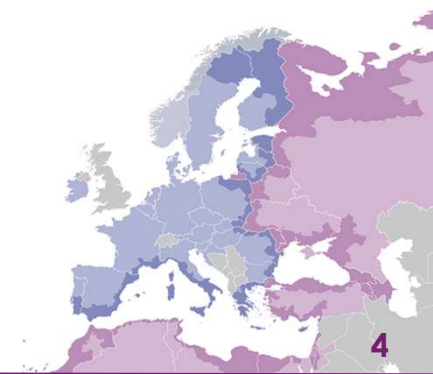

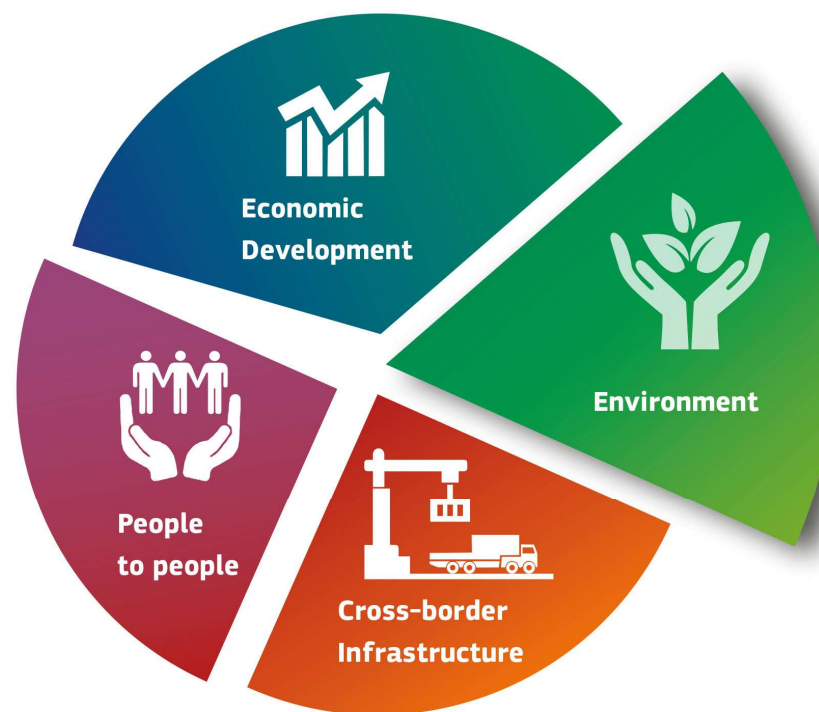

Thematic approach for project clustering

4 Clusters
4 Thematic workshops
4 Thematic publications

CLUSTER ENVIRONMENT

**First thematic event
October 2019 (EWRC)**

Main purposes

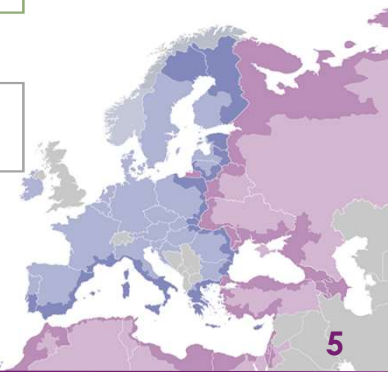

Thematic analysis of ENI CBC projects

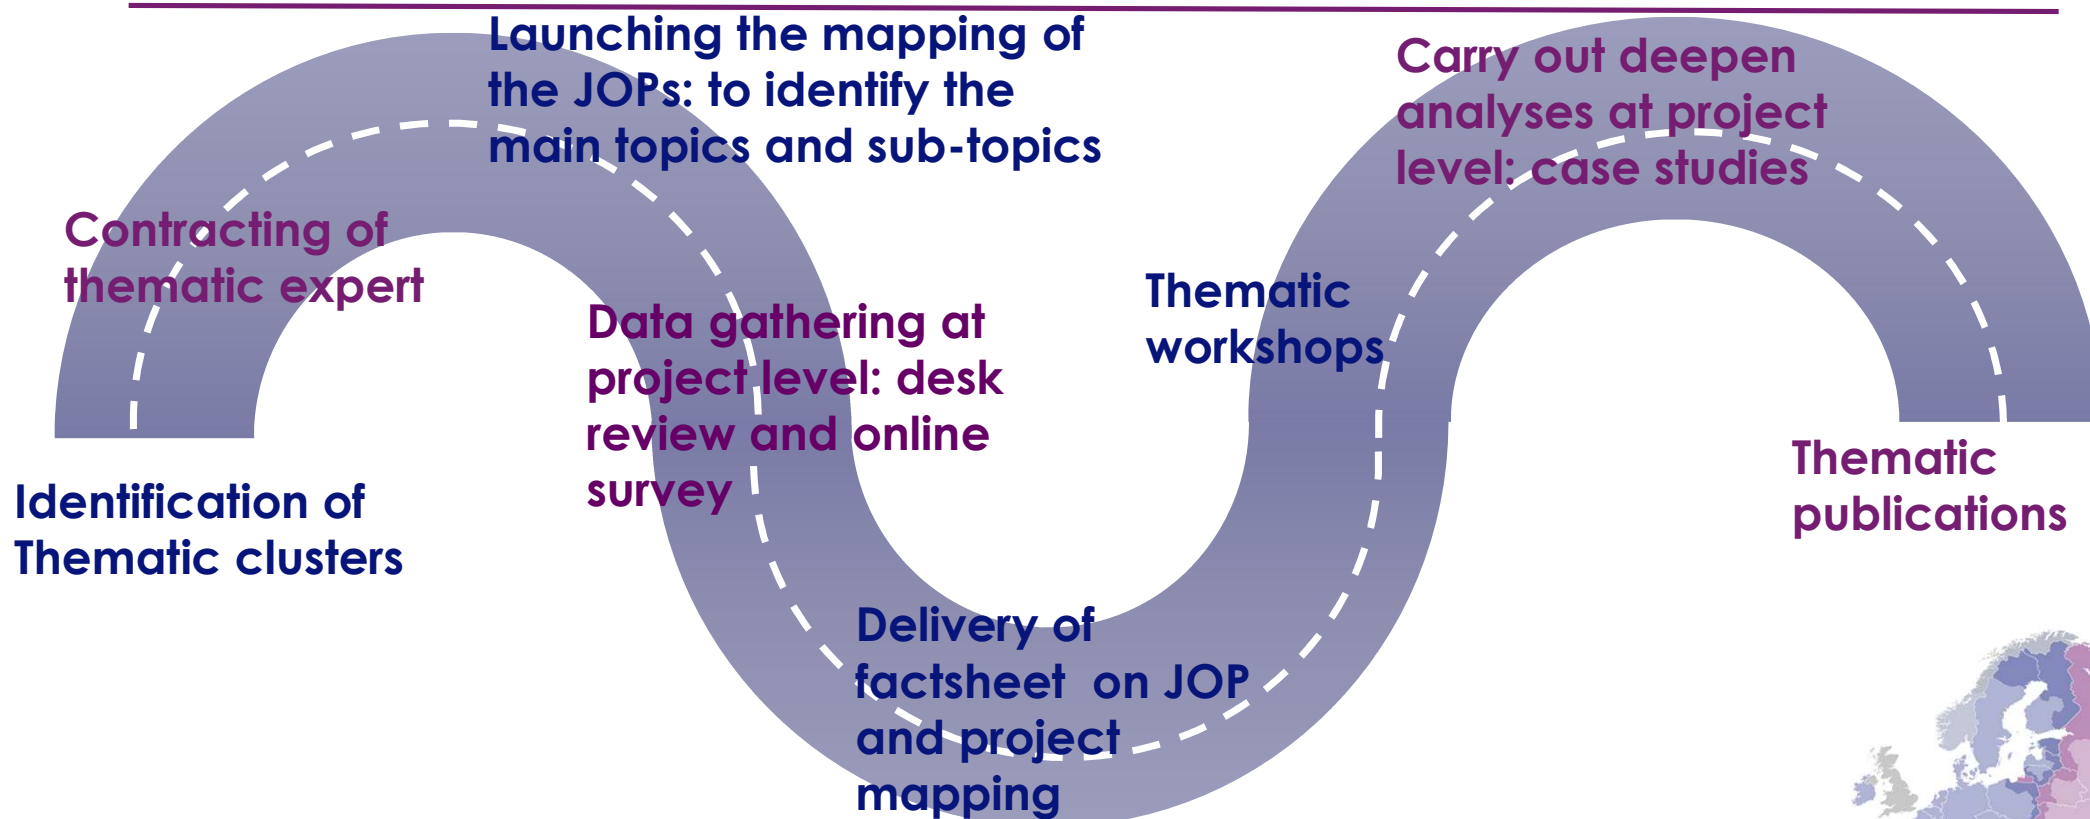

Identification of good practices in each Thematic cluster

Support to Comm&Cap activities

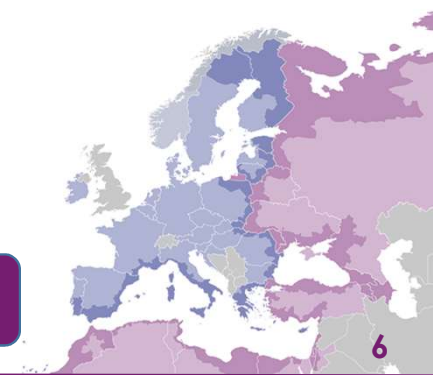

Input to the programming phase of post 2020

Road to thematic clustering

The full process started will be closed by summer 2020

Coordinated communication campaigns

**Because neighbours
share the same home**

This project is
funded by the
European Union

**Because
neighbours
grow up
together**

This project is
funded by the
European Union

**Because neighbours
give a hand**

This project is
funded by the
European Union

Technical Support to the
preparation and management of the
EU-funded projects in the
field of environment and energy

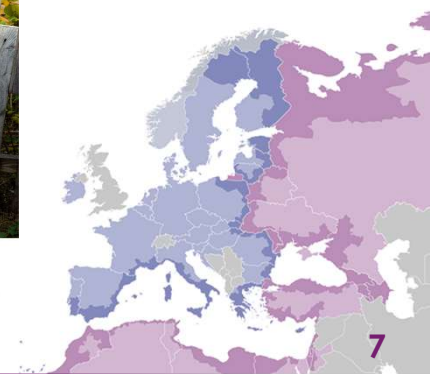

**Because neighbours
keep the doors open**

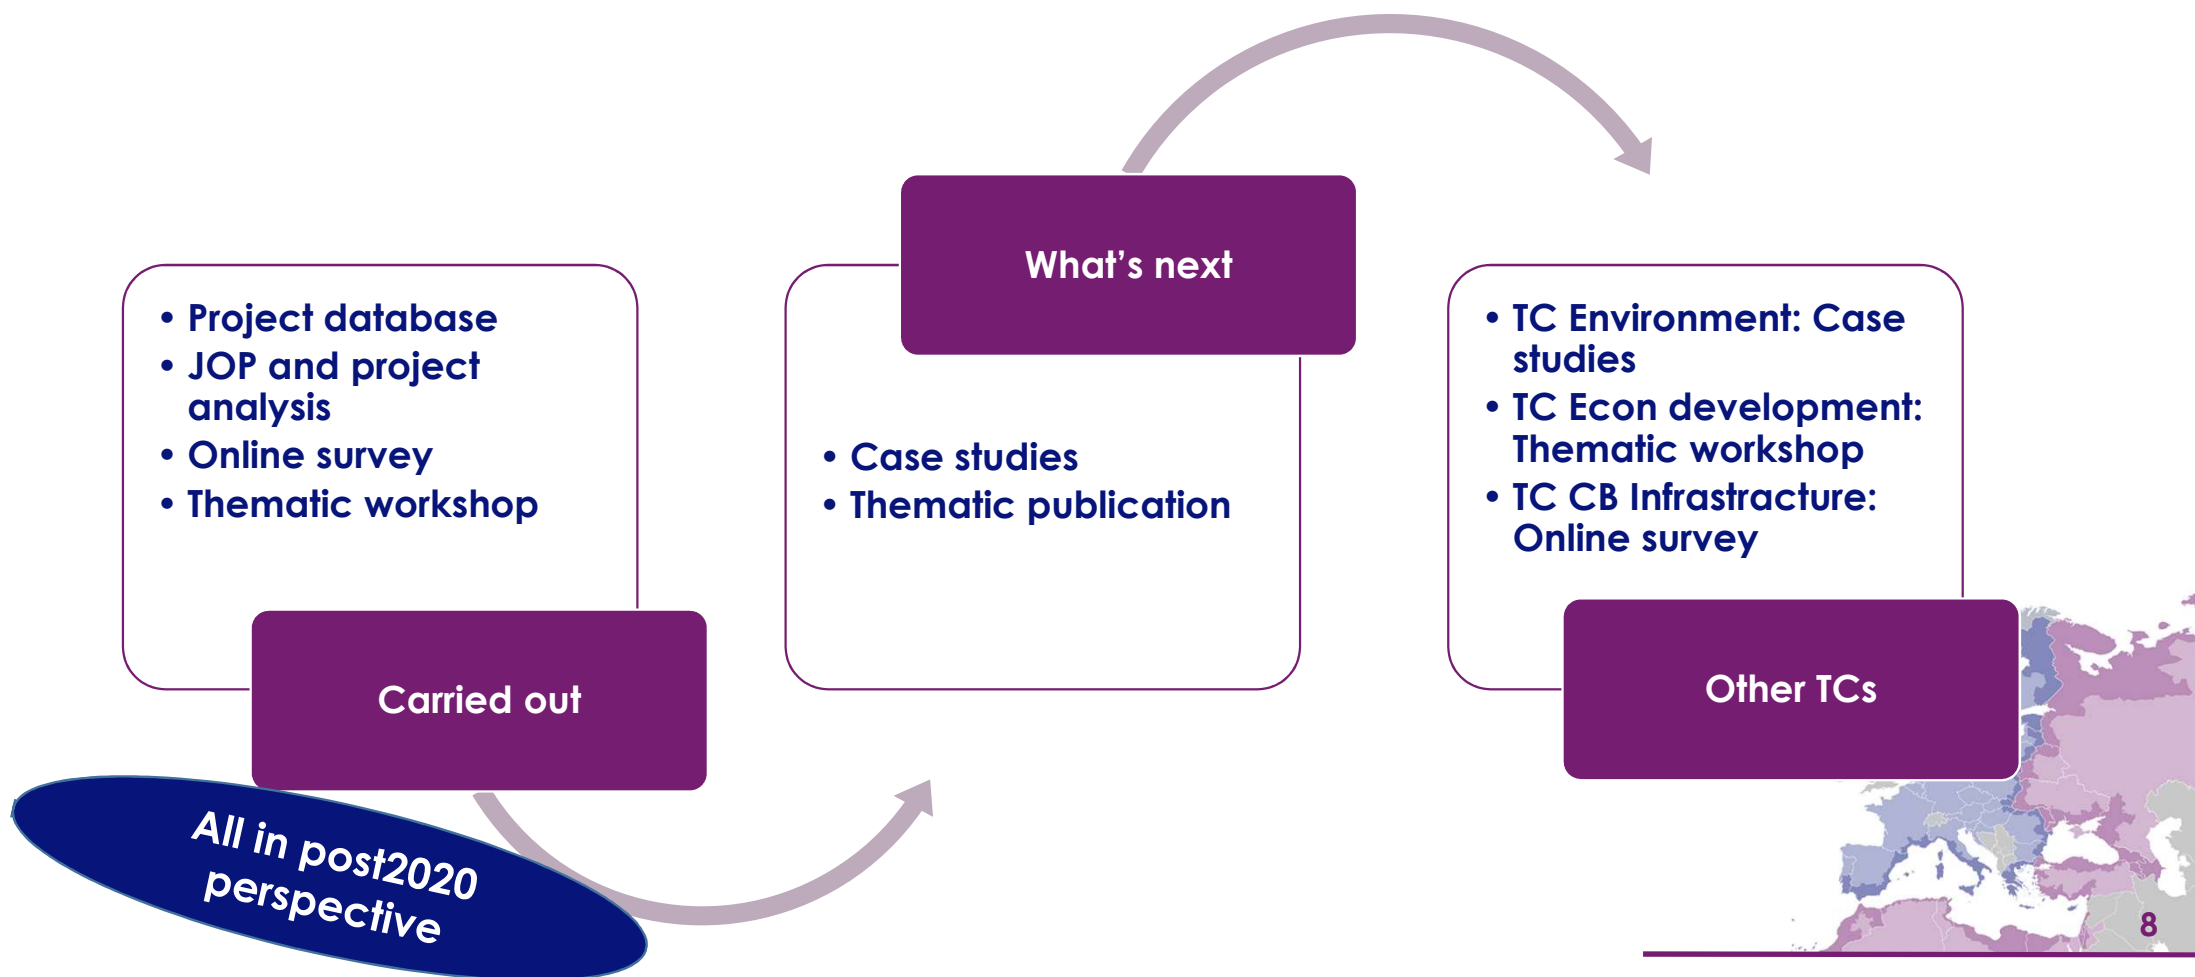

This project is
funded by the
European Union

Technical Support to the
preparation and management of the
EU-funded projects in the
field of environment and energy

TC on P2P: state of play and next steps

Case studies :structure of the interview

Problem addressed, why ENI CBC, what difference did the approach/funding make?

Synergies/exchanges: how the project position itself in the framework of local/national policies

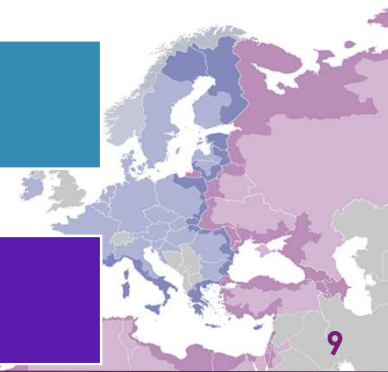

Project outputs and results and impact in real life

Lessons learnt: what would they do different, what do they recommend to others

Post-2020 : how do they consider their project outputs and results could contribute to the definition of future programme indicators?

Key message

TESIM will provide an overview of the full ENI CBC community in terms of topics and projects funded but we'll need your support in order

to gather the most relevant data at project level

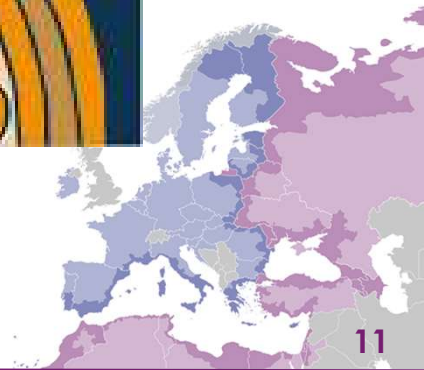

to increase the visibility of your projects

to contribute to the debate on the programming process for NEXT programmes

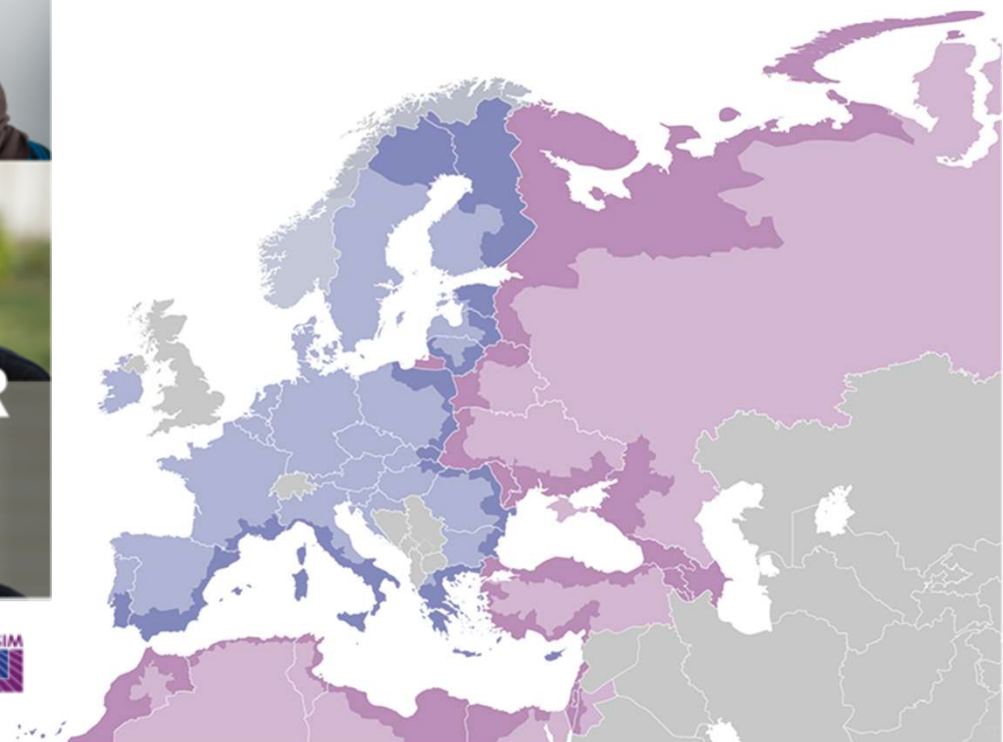

Was I clear enough?
