

COEXIST

*How can humans
and seals best share
a common environment?*

PROJECT TITLE **CoExist - Towards sustainable coexistence of seals and humans**

IMPLEMENTATION PERIOD 01.04.2019 - 31.03.2022

ORGANISATIONS INVOLVED University of Eastern Finland (FI);
Lappeenranta-Lahti University of Technology (FI);
Finnish Association for Nature Conservation (FI);
Biologists for Nature Conservation (RU)

PROGRAMME South East Finland – Russia
CBC 2014-2020

CBC 2014-2020
SOUTH-EAST FINLAND - RUSSIA

TOTAL BUDGET 866.823,00 €

The project seeks to enhance Finnish-Russian research collaboration and to raise awareness of freshwater ecosystem conservation approaches, among different stakeholders. The project explores seal behaviour and, in doing so, it improves our understanding of how seals and humans can best share a common environment.

PROTECTION OF NATURE AND BIODIVERSITY

Project co-funded by
the European Union
