

GREEN SCHOOL

Students design their own plan to make their schools eco-friendly

PROJECT TITLE	Green School
IMPLEMENTATION PERIOD	08.10.2018 - 30.09.2021
ORGANISATIONS INVOLVED	Karelian Education Development Fund (RU); Hyvärilä Youth and Holiday Centre (FI); State institution of supplementary education "Regional ecology and biology center named by Kim Andreev" (RU)
PROGRAMME	Karelia CBC 2014-2020
TOTAL BUDGET	449.648,00 €

KARELIA

CBC // Cross-border cooperation

The project aims at creating a school model that addresses the environmental problems of the local community. The project partners have developed an educational, youth-led method based on the "Ecocase", a suitcase that contains all the necessary tools and instructions to measure the environmental conditions in buildings. Students quantify, analyse and plan all necessary improvements to make their schools more "eco-friendly": this will have a positive impact on the environmental awareness and the promotion of green standards within local communities.

PROTECTION OF NATURE AND BIODIVERSITY

ENVIRONMENT

Project co-funded by the European Union
