

## JIQL

*A multidisciplinary approach to integrate children with cancer and their families into everyday-life*

<b>PROJECT TITLE</b>	<b>JIQL - Joint Initiative to Improve the Quality of Life of Children with Oncological Diseases in the Transcarpathian, Kosice and Presov regions</b>
<b>IMPLEMENTATION PERIOD</b>	11.2019 - 10.2021
<b>ORGANISATIONS INVOLVED</b>	Light of Help Non-profit Organisation (SK), Council for Protection of Rights of Patients and Medical Workers (UA)
<b>PROGRAMME</b>	Hungary – Slovakia – Romania – Ukraine ENI CBC 2014-2020
<b>TOTAL BUDGET</b>	328.129,52 €

The project entails a multidisciplinary approach to improve psychosocial and medical rehabilitation, diagnosis and treatment of oncopathology child patients in Zakarpattia (UA) and Košice (SK) regions. The expertise from Slovak and foreign experts is being shared through staff training, while innovative equipment is purchased. The objective is to create a regional cross-border strategy for child oncology care, mainly in the rehabilitation area, to ultimately improve life quality and integration into everyday life of such patients and their families.
