KARELIA

CBC // Cross-border cooperation

The overall objective of the project is to strengthen the business opportunities, markets and expertise in wood construction businesses across the border. There are three main goals: identifying the bottle-necks hindering the growth and full use of the potential of the wood construction business; building a network of key players to boost the business; increasing a common understanding on how to solve the problems. PROWO results are going to form the base for future development projects and activities in wood construction.
