LITHUANIA - RUSSIA
CBC 2014-2020

The overall objective of this project is to improve the accessibility and quality of psychosocial and physical rehabilitation for vulnerable groups in the cross-border area of Lithuania and Russia. The initiative is focused on applying complex medical rehabilitation methods in order to achieve the best results in children and adults' physical, mental and social well-being. New infrastructure and innovative rehabilitation equipment are being installed; partners will also develop a new neuro-sensory motor methodology for people suffering physical, mental and behavioural disorders.
