

RESFOR

Resilient forests: breaking up the myth about deadwood

PROJECT TITLE RESFOR – Promote deadwood for resilient forests in the Romanian – Ukrainian cross border region

IMPLEMENTATION PERIOD 01.01.2020 – 30.06.2021

ORGANISATIONS INVOLVED WWF Association – Danube Carpathian Program Romania, Maramureş Branch (RO); Stefan cel Mare University of Suceava (RO); Ukrainian Research Institute of Mountain Forestry named after P.S. Pasternak (UA); NGO Ecosphera (UA)

PROGRAMME Romania – Ukraine
ENI CBC 2014-2020

TOTAL BUDGET 324.942,50 €

Romania-Ukraine
ENI-CROSS BORDER COOPERATION

The project will preserve healthy forest ecosystems and the ecosystem services they provide. The focus is on the issue of deadwood management as an important element in securing forests productivity, biodiversity of forest ecosystems and forests resilience to climate change. This way the project is breaking up with the myth about deadwood – something to be removed from forests. It is aiming at contributing to the mitigation of climate change, and at enhancing the provision of ecosystem services to local communities.
