

WOD-KAN MIŁ-GUS

Saving the Vistula lagoon

PROJECT TITLE

WOD-KAN MIŁ-GUS - Miłakowo and Gusev commune cooperation for the protection of the Vistula Lagoon by regulating the water and sewage management of key agricultural and tourist areas in the Pregoła and Pastęka catchment

IMPLEMENTATION PERIOD

22.07.2020 - 21.07.2022

ORGANISATIONS INVOLVED

Urban Enterprise of Municipal Services Ltd. in Miłakowo (PL); Gusiev Commune (RU)

PROGRAMME

Poland - Russia
CBC 2014-2020

POLAND - RUSSIA
CROSS-BORDER COOPERATION PROGRAMME
2014-2020

TOTAL BUDGET

1.858.139,76 €

The project aims at eradicating sanitary pollution problems in the rural areas of Warmian-Masurian Province (PL) and Kaliningrad Oblast (RU). Sanitary and water sewage systems are being installed in the different towns of the mentioned cross-border regions. Different educational activities with water resource managers will also take place. The construction of modern sewage and water supply infrastructure will contribute to eliminating existing sources of pollution from municipal wastewater, thus improving the state of the environment in the Vistula Lagoon.
