

CGTN

A cross-border network of charging stations for electric vehicles

PROJECT TITLE	CGTN – Cross-border green transport network
IMPLEMENTATION PERIOD	01.10.2019 – 28.02.2021
ORGANISATIONS INVOLVED	Ivano-Frankivsk city council (UA); Charitable Foundation “Teple Misto” (UA); Town of Michalovce (SK); Municipality of Baia Mare (RO); Municipality of Nyíregyháza (HU)
PROGRAMME	Hungary – Slovakia – Romania – Ukraine ENI CBC 2014-2020
TOTAL BUDGET	280.805,49 €

The project has created a network of 19 public charging stations in 11 different cities in Hungary, Romania, Slovakia and Ukraine, to increase the use of electric cars in the eastern part of Europe and to connect eastern with western neighbours alike. Charging stations are installed in strategic and well known locations, and can be localised through a mobile phone application which gives access to a map. The overall project goal is the implementation of an environmentally friendly transport system, with low emission and noise levels.

TRANSPORT AND LOGISTICS

Project co-funded by the European Union
