

HAZLESS

Fighting the impact of dangerous substances in the eastern part of the Gulf of Finland

PROJECT TITLE	HAZLESS - Hazardous chemicals in the eastern Gulf of Finland – concentrations and impact assessment
IMPLEMENTATION PERIOD	01.04.2019 - 28.02.2022
ORGANISATIONS INVOLVED	Tallinn University of Technology (EE); Zoological Institute of the Russian Academy of Sciences (RU); Scientific Research Center for Ecological Safety of the Russian Academy of Science (RU)
PROGRAMME	Estonia – Russia CBC 2014-2020
TOTAL BUDGET	469.300,00 €

The project aims at developing and harmonizing a number of biological indicators to assess and control the environmental quality of the eastern part of the Gulf of Finland. The project beneficiaries are exchanging information and joining efforts to fill in the gaps regarding good environmental status descriptors and standards, particularly in relation to the emergence of chemicals and harmful substances and their effect in the programme area.
