

# SHAPING CITIES

*Giving a new green life to degraded urban areas*

## PROJECT TITLE

**Shaping Cities - Management and urban planning of green city areas for sustainability in Latvia and Russia cross-border cities**

## IMPLEMENTATION PERIOD

01.06.2019 - 01.06.2021

## ORGANISATIONS INVOLVED

Rēzekne City Council (LV);  
Department of construction management of Pskov City Administration (RU)

## PROGRAMME

Latvia - Russia  
CBC 2014-2020

## TOTAL BUDGET

650.560,77 €

The project aims to give a new perspective to deprived urban spaces by transforming them into green, sustainable and attractive areas to support tourism and local economy. The project partners are working on the revitalization of two urban parks in Rēzekne (Latvia) and Pskov (Russia) and are also offering trainings to different municipal actors on urban spatial planning, nature objects management and sustainable tourism development. The training activities are supported by a methodological handbook on sustainable management of deprived urban areas.

**PROTECTION OF NATURE AND BIODIVERSITY**

Project co-funded by  
the European Union

**ENVIRONMENT**
