

BSB SMART FARMING

*The digital transformation of agriculture:
increased quality, better use of resources*

PROJECT TITLE

BSB Smart Farming – Jointly preparing the conditions in the agricultural and connected sectors in the BSB area for the digital transformation

IMPLEMENTATION PERIOD

14.07.2020 – 13.03.2022

ORGANISATIONS INVOLVED

Pieriki Anaptixiaki S.A.-O.L.A. (GR); “Dunarea de Jos” University of Galati (RO); Fund “Investment Support Center” (AM); Business Advisory Center (MD); Iakob Gogebashvili Telavi State University (GE); Business Agency Association (BG)

PROGRAMME

Black Sea Basin
ENI CBC 2014-2020

TOTAL BUDGET

697.695,40 €

The digital transformation of the agricultural sector requires transition from traditional cultivation to modern methods through the use of new technologies. The BSB Smart Farming project helps to speed up the digital transformation in the agricultural and related sectors in the Black Sea area, and to improve the capacities of the farming community, academia, public institutions, industry actors and entrepreneurs for cross-border trade opportunities. Many are the activities planned by the partners, among which mapping the preparedness for smart farming in BSB partner countries, launching of Smart Farming platform and creating Smart farming networks of stakeholders. The project also plans to promote the digital transition in agriculture, and to strengthen the entrepreneurship ecosystem of cross-border smart agriculture in the Black Sea Basin.
