

# COMINF

Mobile networks  
to link authorities  
across border areas

<b>PROJECT TITLE</b>	<b>COMINF - Communication Infrastructure</b>
<b>IMPLEMENTATION PERIOD</b>	29.06.2019 - 12.10.2022
<b>ORGANISATIONS INVOLVED</b>	Ministry of Internal Affairs, Information Technology Service (MD); Ministry of Internal Affairs, General Directorate for Communications and Information Technology (RO); Ministry of Transport, Infrastructure and Communication (RO)
<b>PROGRAMME</b>	Romania - Republic of Moldova ENI CBC 2014-2020
<b>TOTAL BUDGET</b>	7.951.320,33 €

**Romania-Republic of Moldova**  
ENI-CROSS BORDER COOPERATION

The existing communication infrastructure in the border areas between the Republic of Moldova and Romania does not provide a timely and secure information exchange between the authorities. This negatively affects decision-making processes, response to emergencies and tackling common challenges of the border areas (illegal migration, organized crime, smuggling). The COMINF project partners develop an integrated communication system and increase the capacities of information exchange between the competent authorities of the two countries. The main activities foresee setting up a cross-border police center in Lipcani (MD), upgrading communication infrastructure and extending network area in both countries, establishing four mobile communication centers to ensure flexibility of the network coverage capacity and procurement of radio-IT equipment.

## TRANSPORT AND LOGISTICS

# CROSS-BORDER INFRASTRUCTURE

Project co-funded by the European Union
