CROSS-BORDER COOPERATION PROGRAMME
2014-2020

The project improves the access to the border-crossing point “Bezledy – Bagrationovsk” between Poland and Russia, facilitating the development of the transport network in the border area. The infrastructure works on the Polish side take place in the town of Bartoszyce and include the construction of a new four-span bridge over the Łyna River with a sidewalk, a cycle path and lightening, a new road section with a cycle path and a pavement and the reconstruction of an existing road. On the Russian side the partners reconstruct six streets with sidewalks in the town of Gusev, improving their safety. The project aims also to strengthen cross-border cooperation between the road management entities from the two countries.
