**Romania-Ukraine**  
ENI-CROSS BORDER COOPERATION

Creativity is one of the top skills required nowadays to enter the labour market. However, both in Romania and Ukraine school leavers often lack such skills due to the constraints of their educational systems. The partners of the CreaFuture project cooperate in the field of education to increase the access of young people from Botosani (RO) and Chernivtsi (UA) to the labour market by developing their life skills and creativity. Trainings for 80 teachers, selection of good practices and establishment of a cross-border community of specialists aim to enhance the capacities of future school graduates.
