The project aims to strengthen the cooperation between the Lithuanian and Russian fire protection units in order to achieve more security for the people living on both sides of the border, in the context of floods and forests fires. To do so, the two partners are renewing the collaboration between the two units, they are strengthening the firefighters' skills and exchanging good practices in joint large-scale exercises. The project partners are also purchasing modern equipment so that the fires brigades are better prepared to respond rapidly and efficiently to natural disasters in the border area.
