

CROSSCOMP

Universities driving automotive engineering sector

PROJECT TITLE	CROSSCOMP - Cross-Border Regional Hub of Competences for the Automotive Industry
IMPLEMENTATION PERIOD	01.10.2020 – 30.09.2022
ORGANISATIONS INVOLVED	“Gheorghe Asachi” Technical University of Iasi (RO); Technical University of Moldova (MD); State Agrarian University of Moldova (MD)
PROGRAMME	Romania – Republic of Moldova ENI CBC 2014-2020
TOTAL BUDGET	444.000,00 €

Romania-Republic of Moldova
ENI-CROSS BORDER COOPERATION

The automotive industry represents a great opportunity for the development of the cross-border region: the sector has a high priority for local technical universities, considering its multidisciplinary nature, which allows the concentration of material and human resources of several faculties and departments. In three universities of the cross-border area, the CROSSCOMP project proposes a coherent, coordinated action plan to ensure the preconditions for a quality academic educational process in the automotive engineering sector. Among the key project activities are the diversification of the academic offer, the development of a joint educational and research strategy, the improvement of students technical and soft skills, and the modernisation of the university premises (laboratories, teaching amphitheatres, etc).
