<b>IMPLEMENTATION PERIOD</b>	15.09.2019 - 14.09.2022

<b>PROGRAMME</b>	Hungary - Slovakia - Romania - Ukraine ENI CBC 2014-2020
<b>TOTAL BUDGET</b>	1.037.081,58 €

From folkdances to gastronomy classes: the project aims at boosting intercultural cooperation between two cities, Seini, in Romania and Kalusk, in Ukraine. The partners are restoring historical and civic monuments in each city, to establish two parallel multicultural centres and to organise different cultural activities. Folk-art dances or gastronomy masterclasses for the neighbours are only some of the events organised within the project. The project partners are also designing and distributing promotional materials to tap on the touristic potential of the two areas. The purpose is to intensify cultural exchanges and revitalise the region, by demonstrating that two mirroring cities can solve common problems, join forces and cooperate to create new cultural and tourism opportunities and increase the attractiveness of the region.
