

OBDIA-NET

*Connecting research and laboratories
to treat nutritional disorders*

PROJECT TITLE OBDIA-NET - Cross-border integrated network for advanced health services in obesity, diabetes and metabolic disorders

IMPLEMENTATION PERIOD 28.04.2021 - 27.04.2023

ORGANISATIONS INVOLVED Grigore T. Popa University of Medicine and Pharmacy from Iași (RO); Nicolae Testemitanu State University of Medicine and Pharmacy (MD)

PROGRAMME Romania – Republic of Moldova
ENI CBC 2014-2020

TOTAL BUDGET 1.439.631,00 €

Romania-Republic of Moldova
ENI-CROSS BORDER COOPERATION

The project aims at creating a network of excellence in the provision of medical services, research and education between entities in the field of obesity, diabetes and nutrition pathologies. To do so, the project partners are connecting 12 newly endowed centres that serve the population of the regional border areas. They are setting up research and teaching laboratories in both countries – investing in top-notch microscopes and other equipment – to bridge the gap between theory and practice in diabetes, obesity, and other nutritional disorders, following a multidisciplinary approach. The project is also developing good practices guidelines and new comprehensive protocols, they are improving the counselling services for the prevention and treatment of nutritional pathologies and diabetes and they are influencing the regulatory and public policies in the field.

Project co-funded by
the European Union
