**Romania-Republic of Moldova**  
ENI-CROSS BORDER COOPERATION

The partners of the RMCO project rehabilitated and modernized several customs offices in the border area between Romania and the Republic of Moldova, increasing their institutional and operational efficiency. The investments improved the infrastructure of six border-crossing points - Albita-Leuseni, Sculeni-Sculeni and Giurgiulesti-Giurgiulesti - and allowed to purchase modern customs control equipment and to reconstruct the access roads. All this is increasing the prevention of illegal transit of goods and fiscal evasion, as well as it is reducing time for custom controls.
