Romania - Ukraine  
ENI CBC 2014-2020

## TOTAL BUDGET

332.979,80 €

**Romania-Ukraine**  
ENI-CROSS BORDER COOPERATION

STEM is an acronym for Science, Technology, Engineering and Math education: it is an interdisciplinary approach that helps students succeed in college and in their future careers. The ENI CBC project aims to increase the competitiveness in the labour market of students of vocational and professional schools in Ivano-Frankivsk, Sighetu Marmatiei and Seini municipalities. This is being done by introducing STEM-education approaches to the learning process and by developing the students' professional skills. The partners have also established an ongoing dialogue between vocational and specialized schools on one side, and business and local government on the other.

## SKILLS

Project co-funded by  
the European Union

# ECONOMIC DEVELOPMENT
