ENI CBC 2014-2020

TOTAL BUDGET 3.856.322,19 €

The Mediterranean area suffers from extremely high rates of youth and female unemployment. To face this challenge, the project GREENLAND promotes social inclusion and contributes to the fight against poverty by providing unskilled and underprivileged young people with marketable skills in the Green and Circular Economy, with the potential to generate thousands of jobs. To reach its objective, the project is creating new curricula based on market needs, skills transfer to NEETs and women, media-based training tools, and cultural exchanges among young people. The creation of new employment opportunities will be reinforced by the sector-skills alliances between TVETs (Technical and Vocational Education and Training institutions) and SMEs (Small and Medium size Enterprises).
