

IBSSOUTH

Preventing illicit traffic at the Polish-Ukrainian border

PROJECT TITLE	IBSSouth: Improvement of Ukraine – Poland border surveillance system (Southern segment)
IMPLEMENTATION PERIOD	06.11.2018 – 05.11.2020
ORGANISATIONS INVOLVED	Administration of the State Border Guard Service of Ukraine (UA); Mostysk Border Guard Detachment of the State Border Guard Service of Ukraine (UA); Bieszczadzki Border Guard Regional Unit of the Republic of Poland (PL); Polish Border Guard Headquarters (PL)
PROGRAMME	Poland-Belarus-Ukraine ENI CBC 2014-2020
TOTAL BUDGET	2.420.522,20 €

**PL-BY-UA
2014-2020**

The IBSSouth project ensures an efficient and up-to-date monitoring of the Polish-Ukrainian border for better crime protection through high-level surveillance systems. The Mostysk Border Guard Department (Ukraine) was equipped with 8 patrol vehicles, 3 mobile thermal vision complexes and 111 portable, automobile and stationary radio stations. In Poland, the Bieszczadzki Border Guard Regional Unit purchased 3 optical-electronic surveillance systems, 7 thermal cameras and the perimeter protection tools. New equipment in both countries ensures timely and rapid information about illegal incidents enabling fast counteracting cross-border crime. Prevention of illicit traffic of goods encourages the growth of small enterprises and fosters legal cross-border trade.

WELL-FUNCTIONING BORDER-CROSSING POINTS

CROSS-BORDER INFRASTRUCTURE

Project co-funded by the European Union
