

# MYSEA

Reinforcing abilities of women and youth to face green and blue economy innovations

## PROJECT TITLE

**MYSEA – Mediterranean Youth, NEETs and women advancing Skills, Employment and Awareness in the blue and green economy**

## IMPLEMENTATION PERIOD

16.10.2020 – 15.04.2023

## ORGANISATIONS INVOLVED

Development Information and Education Center – CIES Onlus (IT); University of Palermo – Department of Agricultural, Food and Forestry Sciences (IT); Eurotraining Educational Organization SA (IT); Lebanese Development Network (LB); Tunisian Union of Social Solidarity (TU); Jordan University of Science and Technology (JO)

## PROGRAMME

Mediterranean Sea Basin  
ENI CBC 2014-2020

## TOTAL BUDGET

3.695.010,67 €

Given demographic changes, skill mismatches, rigid regulations, gender gaps and persistence of certain socio-cultural norms, the Euro-Mediterranean region faces high unemployment rates of youth. Mainly NEETs (Not in Education, Employment or Training) and women are underrepresented in the labour market. The growing proliferation of sustainable and eco-responsible innovations in the agri-food and waste management sectors requires new occupational profiles. To achieve this goal, MYSEA aims, from one side, to identify existing and emerging skills and professional needs through oriented training, coaching and mentoring; and from the other, to involve Technical and Vocational Education and Training (TVET) institutions and enterprises, encouraging sector-skills alliances through apprenticeship, traineeship and on-the-job training. The project is resulting in opportunities for young women and NEETs to apply the soft and hard skills learned during the training period. It is also providing a platform to exchange experiences and implement national employment schemes in favor of youth employment.

## EMPLOYMENT

# PEOPLE-TO-PEOPLE COOPERATION

Project co-funded by the European Union
