

PART4CM

New structures for climate change mitigation

PROJECT TITLE	Par4CM – RO-UA Partnership for Climate Change Mitigation
IMPLEMENTATION PERIOD	31.10.2020 – 29.07.2023
ORGANISATIONS INVOLVED	NGO “Bureau of research, innovations and technology” (UA); Ivano-Frankivsk National Technical University of Oil and Gas (UA); Municipiul Botosani (RO); Department of Economic and Integration Development of Executive Committee of City Council (UA)
PROGRAMME	Romania – Ukraine ENI CBC 2014-2020
TOTAL BUDGET	276.092,00 €

Romania-Ukraine
ENI-CROSS BORDER COOPERATION

Municipalities, students, local companies, NGOs: they all have a role to play when it comes to preserve the environment and prepare to face climate change. The project “Partnership for Climate Change Mitigation” aims at the creation of Energy Management Agencies (EMAs) formed by local authorities and higher education institutions. The task of the agencies is to implement and monitor the EU Sustainable Energy and Climate Action Plan (SECAP) in Botosani (RO) and Ivano-Frankivsk (UA), where viable solutions to improve energy efficiency have been identified, among which installing software tools to track energy consumption. Education programmes have also been activated at all levels, to create awareness and ensure that the local community joins the public administration’s efforts to make efficient use of energy resources.

RISKS AND CLIMATE CHANGE
