ENI-CROSS BORDER COOPERATION

From marketing to financial management, from communication to planning and problem solving. The CBC-DEBUS project has boosted entrepreneurial skills of 150 young people living in Izmil (Ukraine) and Tulcea (Romania) border regions. A vocational training programme has supported the development of business plans for setting up own businesses within 12 months. The project created an educational tool – the CREDA SYSTEM (a platform & an app) with the sections in Romanian and Ukrainian – which provides online programmes, lectures and video lessons, study material and consultations to all interested in improving business skills. Moreover, thanks to materials adapted to the Romanian and Ukrainian legislations, it guides through such important steps as the selection of a bank, IT solutions for small businesses, online marketing and more.
