

RESCUE GUARD

*Protecting local communities
from disasters*

PROJECT TITLE **RESCUE GUARD – Cross-border harmonized response to risks and disasters**

IMPLEMENTATION PERIOD 01.06.2021 – 31.05.2023

ORGANISATIONS INVOLVED Moftin Commune (RO); Vásárosnamény Local Self-Government (HU); Vyshkovo village council (UA)

PROGRAMME Hungary – Slovakia – Romania – Ukraine
ENI CBC 2014-2020

TOTAL BUDGET 682.435,06 €

The three municipalities work together to identify, assess, and reduce risks associated with hazards and human activities that threaten cross-border territory; and they do so by developing solutions for effective joint interventions in case of disasters. The equipment purchased within the project – water pumps, inflatable dams, power generators, excavators, firefighter trucks, etc. – serve now to protect the communities from floods, fires and other natural and man-made disasters. In Moftin (Romania) and Vásárosnamény (Hungary) the partners have built and rehabilitated infrastructure used by the local emergency units. The project has also facilitated professional cooperation among the specialized units from the three countries, as well as raised awareness on disaster prevention among the local population and school children.

WELL-FUNCTIONING BORDER-CROSSING POINTS

**CROSS-BORDER
INFRASTRUCTURE**

Project co-funded by
the European Union
